3.	The requested product/service is <b>essential in maintaining experimental or administrative continuity</b> . Provide a thorough explanation in " <b>Explain in detail</b> " section below.			
	Requested product/service is being used in continuing experiments; Other investigators have used this product/service in similar research and, for comparability of results, I require it; I have standardized the requested product/service; the use of another would require considerable time and money to evaluate.			
	Explain in detail:			
4. 🗌	The requested product or service is one with which I (or my staff) have <u>specialized training and/or extensive experience</u> . Retraining would incur substantial cost in money and/or time.			
	<ul> <li>A. Manufacturer/Model of existing equipment:</li> <li>B. Estimated hours/per person required to retrain:</li> <li>C. Numbers of persons requiring retraining:</li> </ul>			
5. 🗌	There is a <b>firm schedule requirement</b> which only one supplier has the capability of meeting. In this instance, the schedule requirement must be of such compelling and unusual urgency that failure to mee the schedule will seriously impact a Caltech task/project. <u>Provide evidence that other suppliers can not meet your schedule</u> .			
	Explain in detail:			
6.	There is a <b>substantial technical risk</b> in contracting with any other supplier, thereby making that an unacceptable course of action; e.g., where only one supplier has been successful to date in implementing a difficult manufacturing process. Provide supporting evidence of other supplier's with relevant capabilities and their <b>inability</b> to overcome the substantial technical risk.			
	Explain in detail:			
7. 🖂	Only known manufacturer/service provider of this product/service:			
	<ul> <li>A. What research/investigation has been done to support this claim (i.e. trade shows, internet searches, professional journals, colleagues, etc.?: internet search, talk with other suppliers, etc</li> <li>B. Please list sources checked: internet, Service Physics Inc, RBD instruments,</li> </ul>			
	Note: A requirement for a particular proprietary item does not justify a sole source procurement if there is more than one potential bidder or distribution network authorized to provide that item.			
8.	Other factors not addressed above which may assist in the sole source justification review process are:			

## **SECTION II**

2. I have contacted other suppliers or service providers identified below and considered their product/service of <u>similar capabilities</u>. These products or services are not acceptable because they lack one or more of the technical specifications/capabilities described in Section I above:

MARKET RESEARCH (Other Suppliers Contacted) (Identify all other sources whose products/services have been reviewed and why they are not satisfactory)					
	Supplier 1	Supplier 2			
Supplier Name:	Service Physics Innc	RBD Instruments

Representative Contact:	Robert Chaney	Malinda Corley			
Phone Number:	541 218 8688	541 330 0723			
Website URL:	www.sphysics.com	www.rbdinstruments.com			
Technical Deficiency / Capability:	Will not support the instrument	Will not support the instrument			

Note: Attach any quotes, web documents or documentation you have received from other suppliers to support your rationale.

I am aware of Caltech's requirements for competitive bidding for purchases over \$10,000.00 and the criteria for justification for noncompetitive Purchasing. I have gathered the required technical information and have made a concerted effort to review comparable/equal equipment (e.g. Market Research). I have <a href="matteched"><u>attached</u></a> the pertinent documentation showing what Market Research was conducted to preclude other items from consideration.
